

The AOC German Chapter – Red Baron Roost was following its annual lecture calendar 2025 and was invited to receive briefings by BrigGen. Richert and his commando on November 13th, 2025 in Daun/ Volcanic Eifel region.

This event marked the fourth “Briefing Event/ Themenabend” event in 2025 for the AOC Red Baron Roost members in 2025, followed by a and final get-together and networking session. More than 50 members from industries, institutes, MoD organizations and soldiers were present to listen and discuss on the three lectures provided from the Commando and EloKa Battalion:

Lecture EW Command Reconnaissance and Effects | BrigGen Richert

Quo vadis EloKa | Col. Messelhaeusser

EW Training Center – who we are, our challenges, our achievements | Capt. Zittlau

The fourth lecture was presented by our Director and Commander Malte von Spreckelsen (CIR) on: Capability coalition EW – Support to Ukraine. Malte also acted as the PoC and coordinator for this event and moderated the evening. The speakers were thanked with a bottle of “Frequency water” and the RBR Coin. Our President GenMaj. Traut delivered a welcome note by video, as he was prevented from traveling to the Volcanic Eifel region for official reasons. After the lecture’s session a get-together with the speakers and visitors with finger-food served, which was sponsored by our new Chapter member SAAB Deutschland company.

The event was rated very interesting and informative – and finally the new lecture calendar for 2026 was introduced to the community.

Thank You General Richert to You and your team for the hospitality and the news provided, which were very much influenced by the spirit of the “Zeitenwende (turn of an era)” and strong efforts inside the German Armed Forces. By the way, it should be mentioned that General Richert is a strong supporter of EW/ EloKa and AOC and he was honored by the Military Service International Medal Award back in 2006 during the AOC Convention in San Diego.

Editor: Gerhard Henselmann, Secretary AOC German Chapter – Red Baron Roost e.V. {18Nov2025}
